EDUCATION

Master of Mass Communication

2018 - 2020

Prestige Institute of Management and Research

Bachelor of Arts (English Literature)

2015 - 2018

Indore Christian College, DAVV University

PROFILE

Developer with a background in content and response evaluation, now focused on building full-stack web applications. Experienced in creating responsive user interfaces using React and developing backend systems with Django and Python. Skilled in REST API integration, CMS-driven platforms, and database-backed features. Brings a user-first perspective to development, combining communication insight with technical execution.

PROJECT Link

TechnoCrops Website Platform (React + Django + Tailwind)

- Designed and developed a scalable corporate website platform with modern UI/UX and full-stack architecture.
- Built a multi-page responsive frontend using React with reusable components, service modules, testimonials sliders, and case study grids.
- Developed backend systems using Django and Django REST Framework to manage services, careers, blogs, testimonials, and contact inquiries.
- Created and integrated REST API endpoints with the React frontend for dynamic content rendering and CMS functionality.
- Implemented lead-generation workflows i.e. contact forms.

RELEVANT WORK EXPERIENCE

Affimintus Technologies — May'25 - Present

Training + Full Stack Developer

- Completed an intensive 3-month full-stack development training followed by hands-on project work in a production environment.
- Built responsive frontend interfaces using HTML, CSS, JavaScript, React, Tailwind CSS, and Bootstrap.
- Developed backend features using Python and Django, including database models, API endpoints, and server-side logic.
- Worked with SQL databases to design schemas, perform CRUD operations, and support dynamic application data.
- Integrated REST APIs between React frontend and Django backend for seamless data flow.
- Collaborated with senior developers to debug issues, optimize performance, and improve overall application usability.
- Managed version control using Git and GitHub and prepared application for production deployment.

InfoBeans Technologies — Oct'22 - Apr'25

Content Writer & Website Coordinator

- Delivered technical and marketing content for global IT clients, strengthening digital engagement.
- Supported website migration, CMS updates, and platform transition initiatives across production environments.
- Audited live web pages for responsiveness, usability, and performance, collaborating with developers to resolve UI issues.
